3 x 3 Standard Booth Package

GRAPHICS

Please note that the shell scheme walls are made up of panels 2.47m high divided at 1m intervals with aluminium poles. **PLEASE NOTE: the actual dimensions of each panel, for the purpose of applying graphics, is 950mm wide x 2240mm high.** The maximum height for pop up displays within shell scheme stands is 2.47 metres (please see shell scheme diagram with dimensions above).

Please advise Claire Farrugia cfarrugia@tarsus.co.uk if you have any questions about fitting your display into your stand area.

If you wish to have graphics printed to fit within your shell scheme stand, our contractor, PICO, are able to provide a full range of graphical options. Please contact:

Tony Gu

Tel: + 86 215 196 0990 x 8278

Email: tonygu@cn.pico.com

ADDITIONAL SHELL SCHEME OPTIONS

Additional fittings and accessories for the shell scheme can be ordered using the **PICO** order forms in **Section 6** of the manual. All additional items are chargeable directly to the Exhibitor.

INTERIOR DISPLAYS ON SHELL SCHEME SITES

Exhibitors are at liberty to engage a contractor of their choice to carry out the construction and installation of interior displays on shell scheme stands provided that the name of the contractor appointed is submitted to the Organisers.

The official shell scheme contractors, **PICO**, will, of course, be pleased to provide estimates for such work. Please note that all materials used for the construction of displays must be of a non-inflammable nature.

PLEASE NOTE: If you are ordering any extra items such as furniture, electrics or staffing etc please ensure that you make payment to the relevant contractor in full, in advance of the exhibition, to avoid delay onsite. In China, orders are not serviced unless full payment has been received. To avoid delay onsite, please check that your payment has been received before you leave for the show and, if possible, bring proof of payment with you the show.
